

Time	Session No.	Type of Presentation	Title	Primary Presenter
<b>Saturday, January 29, 2022</b>				
8:00 AM	PC01	4-hour Pre Conference	DMERT: Technical Training - Manual Equipment	Matthew MacPherson
1:00 PM	PC02	4-hour Pre Conference	DMERT: Technical Training - Power Wheelchairs	Matthew MacPherson
8:00 AM	PC03	8-hour Pre Conference	The Journey to Mobility: The Value of the Assessment	Patricia Tully
<b>Sunday, January 30, 2022</b>				
8:00 AM	PC04	4-hour Pre Conference	“Am I supposed to do that or are you?”: A Guide to Understanding Everyone’s Role	Cathy Carver
	PC05	4-hour Pre Conference	Incorporating Standardized Seating Measures Into Your Wheelchair Practice	Sara Munera
	PC06	4-hour Pre Conference	Beyond the Clinic: Hands-On Manual Wheelchair Skills Training for the Real World	Lynn Worobey
	PC07	4-hour Pre Conference	Programmable Power Wheelchair Alternative Driving Methods – a New Generation	Michelle Lange
	PC08	4-hour Pre Conference	How to Stand in a World of Sitting: From Process through Programming	Britta Schwartzhoff
	PC09	4-hour Pre Conference	Applying the ALP Tool: Assessment & Intervention for Early Power Mobility Learners	Lisa Kenyon
1:00 PM	PC10	4-hour Pre Conference	Sleeping Better: Training and Supporting Caregivers in practice of 24-7 Posture Care	Patricia Toole
	PC11	4-hour Pre Conference	Cars & Buses & Things that Go: Understanding Current Travel Guidelines and Options	Sally Mallory
	PC12	4-hour Pre Conference	Beyond the Clinic: Hands-On Power Wheelchair Skills Training for the Real World	Lynn Worobey
	PC13	4-hour Pre Conference	Sensors on Wheelchairs - Improving Efficiency and Safety in Mobility	Jean Minkel
	PC14	4-hour Pre Conference	How Do You Know the Product You are Prescribing is Safe and Effective?	David Brienza
	PC15	4-hour Pre Conference	Tools to Provide Valid Evidence that Your Client is, or is Not, in the Right Wheelchair	Karen Rispin
8:00 AM	PC16	8-hour Pre Conference	Advanced Clinical Strategies in Pediatric Power	Karen Kangas
<b>Monday, January 31, 2022</b>				
8:30 AM	SS01	90 Minute - Opening	Welcome, Opening Remarks, and Special Sessions	Mark Schmeler
10:15 AM	IC01	1-hour Instructional Course	Promoting active safety for power wheelchair users with SCI	Mary Kristina Henzel
	IC02	1-hour Instructional Course	Codes, Coverage, Products & Innovation: Do These Words Work Together?	Claudia Amortegui
	IC03	1-hour Instructional Course	Emerging Needs During the Pandemic & Innovation During Lockdown	Rasaria Caforio
	IC04	1-hour Instructional Course	Telerehabilitation: An Effective Tool and its Validation Throughout the Continuum	Sze Wing Kwok
	IC05	1-hour Instructional Course	Modifications to the home environment and beyond. Creating safer environments	Libby Willmott
	IC06	1-hour Instructional Course	The RESNA Wheelchair Service Provision Guide	Mary Shea
	IC07	1-hour Instructional Course	What do you mean it’s not assisting you?: Strategies to Increase Success Power Assist	Angie Kiger
	IC08	1-hour Instructional Course	How Complex are CRT users?	Nicole LaBerge
	IC09	1-hour Instructional Course	Made for Each Other: Kids, custom seating and 24-7 PCM	Tamara Kittelson-Aldred
	PS1	60 Minute Paper Session	Paper Session 1 (20-minutes per paper)	
	PS1.1		Translation of the Aspects of Wheelchair Mobility Test into Spanish	Karen Rispin
	PS1.2		Translation of the Wheelchair Interface Questionnaire into Spanish	Kit Frank
	PS1.3		Translation & Cross-Cultural Adaptation of Wheelchair Components Questionnaire	Paulina Michelle Villacreses
1:00 PM	IC10	1-hour Instructional Course	On Time Mobility: Why Advocating for Movement Experiences for Children	Andrina Sabet
	IC11	1-hour Instructional Course	Navigating the Telehealth Landscape in CRT– A Supplier’s Guide	Kyle Walker
	IC12	1-hour Instructional Course	Camber: Degrees of Performance	Christine Hamstra
	IC13	1-hour Instructional Course	Implementation of the Functional Mobility Assessment in Brazil- a pilot project	Ana Allegretti
	IC14	1-hour Instructional Course	Shoulder Surgery: Therapists Role in Prevention and Preparation	Wendy Koesters
	IC15	1-hour Instructional Course	The Challenges of Planning for Growth in Pediatric Seating	Karen Kangas
	IC16	1-hour Instructional Course	The Link Between Dysphagia and Posture	Filipe Correia

	IC17	1-hour Instructional Course	Bathroom Modifications: The Good, The Bad, & The Ugly	Cynthia Petito
	IC18	1-hour Instructional Course	ATP Certification and Ethics for the New Era (RESNA Track)	Julie Piriano
	PS2	60 Minute Paper Session	Paper Session 2 (20-minutes per paper)	
	PS2.1		Translation of the Wheelchair Satisfaction Questionnaire from English into Spanish	Paulina Restrepo Arango
	PS2.2		Web-Based Transfer Training: Evidence for an Online Approach	Kaitlin DiGiovine
	PS2.3		Investigation of Wheelchair Satisfaction & Related Service of Brazil Wheelchair Users	Haidar Tafner Curi
2:15 PM	IC19	1-hour Instructional Course	Changes with Age – Justification for Custom Manual Wheelchairs for Geriatric Client	Christine Hamstra
	IC20	1-hour Instructional Course	RESNA Wheelchair Transportation Safety Standards (RESNA Track)	Miriam Manary
	IC21	1-hour Instructional Course	Maximizing the impact of rehabilitative seating services: The importance of follow-up	Cara Masselink
	IC22	1-hour Instructional Course	Materials do make a Difference: Clinical considerations for cushion selection	Jean Sayre
	IC23	1-hour Instructional Course	Guidelines for ALS Therapeutic Interventions and Plan of Care	Susan Calyer
	IC24	1-hour Instructional Course	Implementation of a Personal Navigation System for Individuals with Disabilities:	Sara Anderson
	IC25	1-hour Instructional Course	What Could Go Wrong? Evaluating Wheeled Mobility Adverse Events	Kendra Betz
	IC26	1-hour Instructional Course	Improving the quality of wheelchair service in Colombia	Sara Munera
	IC27	1-hour Instructional Course	Considerations for Dependent Mobility in the Pediatric Client	Linda Bollinger
	PS3	60 Minute Paper Session	Paper Session 3 (20-minutes per paper)	
	PS3.1		Development and Implementation of a Longitudinal, Community-Based Program	Heather Feldner
	PS3.2		Key Aspects of Power Mobility Interventions for Children: A Qualitative Study	Lisa Kenyon
PS3.3		Multisensorial Stimulation in a Vertical Standing for Visually Impaired Kids with CP	Martino Avellis	
3:30 PM	IC28	1-hour Instructional Course	Update on Evidence: Revision of the RESNA Ultralight Manual Wheelchair Position	Jennith Bernstein
	IC29	1-hour Instructional Course	Back Support Configuration for Optimal Scapular and Pulmonary Function	Eleni Halkiotis
	IC30	1-hour Instructional Course	Demystifying Seat Cushion Claims: How to Use Wheelchair Cushion Performance	Alexandra Delazio
	IC31	1-hour Instructional Course	Putting It into Practice: Applying What We Know about the Importance of Mobility	Nancy McNamara
	IC32	1-hour Instructional Course	Integrated Assistive Technology Features on Power Wheelchairs (RESNA Track)	Leah Barid
	IC33	1-hour Instructional Course	How to Effectively Provide Complex Rehab Technology During a Pandemic Using Tele	Steve Mitchell
	IC34	1-hour Instructional Course	Development of a Competency-Based Framework for Wheeled Mobility Assessors	Deb Wilson
	IC35	1-hour Instructional Course	Evidence and Expertise: A Delphi Study to Develop Evidence-Based Guidelines	Heather Feldner
	IC36	1-hour Instructional Course	Functional Mobility Assessment Registry Data Updates	Mark Schmeler
	PS4	60 Minute Paper Session	Paper Session 4 (20-minutes per paper)	
	PS4.1		Development of a Custom, Flexible Force Sensor to Detect Patient Position	Robert Podoloff
	PS4.2		The Effects of Aging on Wheelchair Seat Cushions of Various Material Constructs	Amanda Manko
	PS4.3		Development of the High-Performance, Low-Cost Personalized Modular SquishINS	Kath Bogie
5:00 PM	PO1	Poster Session	Poster Session in Exhibit Hall during Exhibit Hall Reception	
	PO1.1	Poster	Interprofessional Education at an Assistive Technology Camp	Alison Kiger
	PO1.2	Poster	Generating evidence for supported seating postures in mobile shower commodes	Emma Friesen
	PO1.3	Poster	Telerehabilitation: An Effective Tool and its Validation Throughout the Continuum	Sze Wing Kwok
	PO1.4	Poster	Improving Our Outcomes: How to Start A Wheelchair Follow Up Clinic	Andrea Stump
	PO1.5	Poster	Ultralight wheelchair for individual's with stroke: a preliminary study	Sujay Galen
	PO1.6	Poster	Hammie: Teaching Posture Concepts with a Simplified Anatomical Mode	S. Tammie Wakefield
	PO1.7	Poster	A Qualitative Study Exploring Stakeholder Perspectives of Pediatric Standing Power	Lisa Kenyon
	PO1.8	Poster	A Feasibility Study Assessing a Novel Fall Detection System Using Machine Learning	Nadim Barakat

	PO1.9	Poster	"We would be lost without this": A Visual Journey of Supportive Mobility Device Use	Heather Feldner
	PO1.10	Poster	Transition of wheelchair models related to neuropsychomotor development	Samara dos Santos
<b>Tuesday, February 1, 2022</b>				
8:30 AM	SS02	90 Minute - Keynote	Keynote Day 2	Brad Dicianno
10:15 AM	IC37	1-hour Instructional Course	Dominican Republic Wheelchair Sector Policies and Practice: Successes, Challenges	Alba Polanco
	IC38	1-hour Instructional Course	Exploring Alternative Drive Controls for Clients with Advanced Neuromuscular	David Miller
	IC39	1-hour Instructional Course	Playing to Learn: Importance of Self-Directed Mobility in Children	Lauren Rosen
	IC40	1-hour Instructional Course	Seating and Mobility Technology: What's Annoying and What's Fixable (RESNA Track)	Gerry Dickerson
	IC41	1-hour Instructional Course	Mobility Devices as Environmental Factors	Mandy McDonald
	IC42	1-hour Instructional Course	Improve Your Outcomes: Implementing a Wheelchair Clinic Follow Up Clinic	Andrea Stump
	IC43	1-hour Instructional Course	The Effect of Whole Human Vibrations on Tissue Loads	Alexander Siefert
	IC44	1-hour Instructional Course	Wheels and Casters: It's How We Roll...	Joseph Ott
	IC45	1-hour Instructional Course	Mainstream Smart Home Technologies for People with Physical Disabilities	Dan Ding
	PS5	60 Minute Paper Session	Paper Session 5 (20-minutes per paper)	
	PS5.1		A Novel Fall Detection System Using Machine Learning and Computer Vision	Margaret Bujor
	PS5.2		Low-Cost CAD/CAM System for Complex Seating Adaptations	Carlos Goncalves
	PS5.3		Content and Face Validation of a Novel Physical Seating Assessment Technique	Bart Van der Heyden
11:30 AM	IC46	1-hour Instructional Course	Dynamic Seating- Diverse Applications: A Series of Case Studies	Karen Missy Ball
	IC47	1-hour Instructional Course	Motivate to Move: Promoting Parental/Caregiver Adherence to Early Power Mobility	Lisa Kenyon
	IC48	1-hour Instructional Course	Virtual Reality as a Power Wheelchair Assessment and Training Tool	Meredith Linden
	IC49	1-hour Instructional Course	My Wheelchair Guide: Manual Wheelchairs (a Smartphone application)	Barbara Crume
	IC50	1-hour Instructional Course	Smart Home Makeover Disability Edition (RESNA Track)	Antoinette Verdone
	IC51	1-hour Instructional Course	Showing our Values – Clinical Practice in Aotearoa New Zealand	Liz Turnbull
	IC52	1-hour Instructional Course	Best practices in online seating and mobility education	Carmen DiGiovine
	IC53	1-hour Instructional Course	A Telehealth Model for Assistive Technology Assessments	Kaila Grenier
	IC54	1-hour Instructional Course	Impact of the Assistive Technology Professional in the Provision of Mobility Assistive	Brad Dicianno
	PS6	60 Minute Paper Session	Paper Session 6 (20-minutes per paper)	
	PS6.1		Person-Centered Care in the Provision of Wheelchair Seating and Mobility and	Becky Breaux
	PS6.2		Student Paper 1	TBD
	PS6.3		Student Paper 2	TBD
2:00 PM	IC55	1-hour Instructional Course	Lessons learned: Development of International Society of Wheelchair Professionals	Mary Goldberg
	IC56	1-hour Instructional Course	Introducing: Digital Validation of Design of Seating Interventions	Bart Van der Heyden
	IC57	1-hour Instructional Course	A Different Approach to Documentation	Gerry Dickerson
	IC58	1-hour Instructional Course	Considering Power Dynamic Positioning as an Essential Part of the Seating System	Kathy Fisher
	IC59	1-hour Instructional Course	AAC for the ATP (RESNA Track)	Adina Bradshaw
	IC61	1-hour Instructional Course	Working with Users to Develop Active Mobility Strategies to Improve Community	Mike Prescott
	IC62	1-hour Instructional Course	Outcome Measures to Assist in Decision Making & Demonstration of Product Success	Jessica Pederson
	IC63	1-hour Instructional Course	Standardized Seating: Can a Wheelchair Cushion Selection Algorithm Work?	Sarah Lusto
3:15 PM	IC64	1-hour Instructional Course	The Complete Solution Approach: Seating for all that Matters in the LTC	Anna Sokol
	IC65	1-hour Instructional Course	The Seat Cushion Micro Climate: Cushion Surface Temperature, and Moisture	Amy Bjornson
	IC66	1-hour Instructional Course	Closing the Gap for People Needing CRT Through Inpatient Rehab and Outpatient	Cathy Carver

	IC67	1-hour Instructional Course	The Wheel Story: Impact of Wheels and Tires on Manual Wheelchair Performance	Curt Prewitt
	IC68	1-hour Instructional Course	Supporting the Client: Extending Impact of the ATP with Client & Caregiver Training	Daniel Cochrane
	IC69	1-hour Instructional Course	Smart Wheelchairs: What's Available for Power Chair Safety?	Jean Minkel
	IC70	1-hour Instructional Course	Using Pressure Mapping in Mobile Shower Commode Chair Assessments	Emma Friesen
	IC71	1-hour Instructional Course	Virtual Visits for Seating and Mobility Assessments	Linda Norton
	IC72	1-hour Instructional Course	Scoping Review Investigation of Complex Rehabilitation Technology and Next Steps	Carmen DiGiovine
	IC73	1-hour Instructional Course	Fit for Future	Simon Hall
4:30 PM	IC74	1-hour Instructional Course	Least Costly Alternative: The True Economic Value Provided When Appropriate CRT	Catherine Sweeney
	IC75	1-hour Instructional Course	Custom Molded Seating: Options, Innovations and Covid	Jill Sparacio
	IC76	1-hour Instructional Course	A Fall Prevention and Management Program for Full-time Wheelchair and Scooter	Laura Rice
	IC77	1-hour Instructional Course	Healthcare Quality Improvement Focused on Efficiency of Complex Wheelchair	Sally Taylor
	IC78	1-hour Instructional Course	Start with the Client: Increasing Your Value through Client-Centered Practice (RESNA)	Emma Smith
	IC79	1-hour Instructional Course	Heads UP! Supporting head control and access to AT: Using Bluetooth Connectivity	Michele Bishop
	IC80	1-hour Instructional Course	10 Things I Hate About You: Exploring the Relationship, Roles and Responsibilities	Lisa Codero
	IC81	1-hour Instructional Course	A Clinical Introduction to R & D: The How and Why Behind the Specs	Dawn Hameline
	IC82	1-hour Instructional Course	Using Big Data to Improve Quality & Value for Multiple Stakeholders in CRT	Ginger Walls
IC83	1-hour Instructional Course	Development of the Seating Mobility Index	Rachel Hibbs	
<b>Wednesday, February 2, 2022</b>				
8:30 AM	IC84	1-hour Instructional Course	The ATP as The Case Manager (RESNA Track)	Michael Seidel
	IC85	1-hour Instructional Course	Valuing Consumers' Choice and Control within a Functional-Based Insurance Funding	Rachel Maher
	IC86	1-hour Instructional Course	On Time Mobility: A 23-year Perspective	Matt Lowell
	IC87	1-hour Instructional Course	Wheeled Mobility Assessment and Delivery: Has the Pandemic changed this	Alfred Lee
	IC88	1-hour Instructional Course	Wheeled Mobility with Empathy During Pandemic; Strategies for a Calm Approach	Theresa Berner
	IC89	1-hour Instructional Course	Value of Community Data in the Design, Testing, Selection, and Caster Maintenance	Jonathan Pearlman
	IC90	1-hour Instructional Course	The Pelvic-Spine Connection: The Key to Positioning and Function	Allison Speight
	IC91	1-hour Instructional Course	Telehealth Reimbursement Considerations for Wheelchair Evaluation	Daniel Fedor
	IC92	1-hour Instructional Course	Providing Consumer Value & Innovation through Evidenced Based Product	Curtis Merring
9:45 AM	IC94	1-hour Instructional Course	Optimizing a Wheelchair – Taking Advantage of the Technology to Get Best Outcome	Deborah Pucci
	IC95	1-hour Instructional Course	Electrical Stimulation and Improved Seating Outcomes: Literature Review and Clinical	Nathan Casey
	IC96	1-hour Instructional Course	Seating and Positioning Across the Continuum: Improving Outcomes	Stephanie Cooley
	IC97	1-hour Instructional Course	Adding ISO Standards to the Clinical Reasoning Process	Kara Kopplin
	IC98	1-hour Instructional Course	Driver Rehabilitation: Providing the Right Service at the Right Time	Amy Lane
	IC99	1-hour Instructional Course	Using Participatory Action Research Approach to develop content for ISWP Education	Paula Rushton
	IC100	1-hour Instructional Course	Telehealth Mobility & Wheelchair Eval: Observational Evidenced-based Approach	Diane Carrillo
	IC101	1-hour Instructional Course	Impact of Cardiopulmonary Function on Wheelchair Seating and Mobility	Theresa Crytzer
IC102	1-hour Instructional Course	Using the HINE and GMA to Predict Equipment Needs	Ginny Paleg	
11:00 AM	SS03	90 Minute - Closing	Closing Session	Nancy Augustine
